Subject: Docket Number 2018-361-S

Recently I became aware of a request from Carolina water Systems to basically remove the cap from the pumping of our septic gray water systems. Currently the cap is \$150. I am told that they are looking to charge \$400-\$500 for this service.

How do they justify such a huge increase. We all know how law abiding CWS has been in the past (Joke) and how the PSC has granted huge increases to SCEG service. It is time to "just say no" .

I also remember paying some \$28 month for sewer service. It is now \$65.77 and forever rising.

Please vote to stop these rising assessments.
